ONDC BUYER APP PUBLIC DISCLOSURE

Minimum standards for displaying search results

The uniform criteria used to decide which ONDC search responses may be shown to buyers.

Organisation	Zero Margin Food Systems Foundation
Role	Buyer NP - Retail (B2C)
Domain	ONDC:RET10 - Grocery
Version	0.1
Effective date	31 August 2026
Disclosure	Buyer App Disclosure 1

1. Scope

These standards apply to search responses received by the Zero Margin Food buyer application for Retail B2C grocery discovery. A response must pass all applicable legal, protocol and published minimum-standard checks before sorting or display.

2. Minimum standards

1. Legal and catalog eligibility

The seller, store and item must be legally eligible and must not be rejected under ONDC's catalog and store rejection framework.

2. Protocol compliance

The response must conform to the applicable ONDC protocol schema and contain the identifiers needed to continue the transaction.

3. Serviceability and availability

The item must be shown as available and serviceable for the buyer's location at the time of search.

4. Minimum listing information

The listing must include a usable item name, seller identity, price and currency. Material charges supplied by the seller are displayed before confirmation.

5. Consistent and fair application

The same standards are applied consistently to all responding sellers. Zero Margin Food Systems Foundation does not sell ranking positions or favour affiliated sellers.

3. Equal treatment

The standards are applied without regard to the seller's size, affiliation, or willingness to pay for placement. Paid placement is not currently offered. If the standards change, a new version and effective date will be published before use.

4. Contact

Questions may be raised at https://ondc.zeroprofit.food/support or by calling/WhatsApp +91 99692 95759 during published support hours.
